

DATA SHEET

DIGITAL CHROME PRO - EPSON™

ITL's Digital Chrome Pro inks are reliable and colour matched alternatives for the Epson™ Stylus Pro Ultrachrome K3 series printers. Switching to ITL Digital Chrome Pro ink guarantees significant cost savings whilst maintaining a professional level of output quality. The inks are designed for all high-end inkjet printing applications such as the production of professional Photography, Fine Art Giclee, high impact Graphics, Point of Sale, and Exhibition displays. The Digital Chrome Pro set has three black inks - Photo, Light and Light Light - to ensure black and white images print with the widest possible tonal range, smooth graduations, excellent shadow detail and perfect neutrality. Due to the use of high intensity pigments in the formulation both colour vibrancy and archival display life are assured.

COMPATIBLE PRINTERS - EPSON™

Stylus Photo R2400
Stylus Pro 3800, 4400, 4800, 7400, 7800, 9400, 9800

MAXIMUM RELIABILITY

Extensive testing is carried out on all ITL inks during both development and production phases ensuring that all ITL inks are up to the most demanding of print jobs.

- Full hardware and UV fade resistance warranties.
- Extended shelf-life of 18 months.
- Manufactured to strict ISO9001 quality standards.

MAXIMUM DURABILITY

The finest raw materials, modern production techniques and a commitment to quality enable ITL to produce and supply inks that will inspire confidence.

- 100% compatible with OEM ink products.
- High fade resistance.
- Excellent water and scratch resistance.

MAXIMUM COMPATIBILITY

Designed and engineered specifically for each printer type and finely tuned for machine performance and reliability.

- Wide Media and RIP compatibility.
- Simple to install and easy to use.
- Excellent lamination characteristics.
- No flush or cleaning cartridges required.
