

DATA SHEET

DUPLICA DIGITAL - HEWLETT PACKARD™

ITL's Duplica Digital inks are water-based dye and pigment inkjet inks which have been designed specifically for use with the HP Designjet™ 5000 and 5500 series wide format printers. Duplica inks feature identical colour reproduction characteristics to the original inks which means they are fully interchangeable and can be installed either individually or as a full set, and require no pre-installation printer flushing. After conversion there is no requirement to change any of the print driver or RIP settings and no need to reprofile the printer. Print head life is improved thanks to the use of ultra pure ink and chemical components in the formulations. Duplica inks are available either in bulk or in professionally re-engineered, pre-filled, single use 680ml ink cartridges and offer users considerable cost savings whilst maintaining high quality levels of printed output.

COMPATIBLE PRINTERS - HP™

Designjet™	5000PS, 5500PS
Designjet™	5000, 5500
Designjet™	1050, 1050PS

MAXIMUM RELIABILITY

Extensive testing is carried out on all ITL inks during their development and production to ensure they are up to the most demanding of print jobs.

- Full hardware and UV fade resistance warranties.**
- Print quality and printer performance standards maintained.
- Manufactured to strict ISO9001 quality standards.

MAXIMUM DURABILITY

The finest raw materials, modern production techniques and a commitment to quality enable ITL to produce and supply inks that will inspire confidence.

- Duplica Digital Pigment (UV) inks have outstanding fade and water resistance.
- Duplica Digital Dye inks have an improved indoor display life.

MAXIMUM COMPATIBILITY

100% compatible with original inks so printer flushing before converting is not required. Exact colour match - no time consuming RIP or print driver adjustments and no reprofiling. Single use 680ml ink cartridges are installed and used in exactly the same way as originals.

- Wide Media and RIP compatibility.
- Simple to install and easy to use.
- Excellent lamination characteristics.
- Cartridge collection and recycling program.
