EVOSOL J SERIES - MIMAKI™

PRODUCT OVERVIEW

ITL EVOSol inks are the next generation of Eco Solvent products designed to offer a true alternative for digital printers with no compromise, these inks are specifically formulated to offer bright colours, abrasion resistance and excellent printing performance. At last customers who use an "Eco Solvent ink" have a product which is safe, non hazardous with a low odour which is up to the job. IG-EVOSol inks are compatible with the OEM inks providing a quick, simple and clean change over without the need for flushing. These inks have been specially formulated with a low odour which requires no expensive extraction or ventilation and offers peace of mind to operators who use the printers on a daily basis. EVOSol inks give the printer the ability to print photo-realistic images onto a wide range of uncoated materials that don't rub off or require protective coating. A wide gamut and strong individual colour density coupled with a colour brilliance that has to be seen to be believed.
