## IG-JS2 - MIMAKI™

### PRODUCT OVERVIEW

The ITL JS2 True Solvent inks are designed to offer a reliable alternative for Mimaki™ JV3 users, fully compatible with the Mimaki™ solvent inks giving consistent colours and performance without the need to re-calibrate your system. There is no need to flush the OEM ink from the printer providing a quick, simple and clean change over.

Available in chipped 220ml, 440ml cartridges and 500ml or 1 litres bottles, the JS2 inks will work in your printer regardless of its age, firmware version and whether cartridge or bulk fed. The JS2 inks offer significant long-term cost savings to the Mimaki™ user without compromising on quality of output, machine reliability or performance.

The JS2 ink-set gives the printer the ability to print photo-realistic images onto a wide range of uncoated materials that don't rub off or require protective coating. A wide gamut and strong individual colour density coupled with the option of orange and green produces images with a colour brilliance that has to be seen to be believed.

### COMPATIBLE PRINTERS - MIMAKI™

JV3-160, JV3-160SP, JV3-250SP, JV3-75SP, JV3-75SPII, JV3-130SL, JV3-250SPF  
JV5-160S, JV5-130S, JV5-260S, JV5-320S  
JV33-160, JV33-130

### MAXIMUM RELIABILITY

Extensive testing is carried out on all ITL inks during both development and production phases ensuring that all ITL inks are up to the most demanding of print jobs.

- Full hardware and UV fade resistance warranties.
- Extended shelf-life of 18 months.
- Manufactured to strict ISO9001 quality standards.
- Suitable for high speed printing.

### MAXIMUM DURABILITY

The finest raw materials, modern production techniques and a commitment to quality enable ITL to produce and supply inks that will inspire confidence in you and your customers.

- Excellent resistance to alcohols and cleaning fluids.
- UV Light resistant up to 2 years outdoors unlaminated.\*\*
- Superior abrasion and scratch resistance.
- Wide colour gamut and density.

### MAXIMUM COMPATIBILITY

Designed and engineered specifically for each printer model and finely tuned for superior machine performance and reliability.

- Compatible with the majority of standard printing substrates.
- Quick, simple and trouble-free ink change-over procedure.
- Classified as non-hazardous.
- Colour Matched.
